UT Austin Archer Fellowship Program

The Archer Fellowship Program provides the opportunity for qualified UT students to study and intern in Washington, D.C., while earning credit toward a UT degree. For more information, visit the program’s website at www.utexas.edu/ugs/archer.

Project Vote Smart is a non-profit, non-partisan political research organization dedicated to educating voters about the people who govern us. The project is currently recruiting for its Spring 2015 Internship Program at UT Austin. To apply, send a resume to ProjectVoteSmart@austin.utexas.edu.

The Annette Strauss Institute for Civic Life was established at The University of Texas at Austin in 2000 to respond to growing political cynicism and disaffection in the United States. The goals of the institute are to conduct cutting-edge research on the ways in which civic participation and community understanding are undermined or sustained and to develop new programs for increasing democratic understanding among citizens.
